Consulting Group

Two out of Three (>66%) Small Businesses WILL NOT Survive this Seizure of Livelihoods! **FIGHT BACK TO LIFE!**

The Rivo Consulting Group was born in the wake of 9/11. We've seen it all, and helped clients realize they could survive that tragedy, the crash of 2008, and now this.

This communication isn't meant to comment on social distancing, stay home to stay safe, tape on the floor, installing plexiglass, wearing masks, 10¢ bag fees, WFH, or anything like that. At RCG, our goal has always been, and still remains, **the aggressive pursuit of success for our clients** through operations, HR, and Mergers & Acquisitions.

Now is not the time to deal with part-timers, displaced workers, start-ups, ill-informed layers/accountants, or the simple scammers. We've seen it all before and will see it this time too. You're in a bad place **through no fault of your own**. Make informed decisions and trust that RCG has been around a long time. We're ramping up hiring and training new agents, to be there for all businesses in CT and The Pioneer Valley.
