

Hiring the right person for the job is a delicate balance of weighing Aptitude and Attitude with Ability. If you've spent more than a month in business, you know this isn't always easy!

**BAD HIRES = LOST MONEY!**

Not only do bad hires cost you time, money and lost productivity; the impact on employee morale and customer perception can be immeasurable!

Hiring is only a small part of Human Resources Management. Once they're part of your business, now the fun starts! The new hire has to be trained, compensated, rewarded (sometimes punished) and administered. The Rivo Consulting Group can help with any or all of these!

Just starting out, or have been in business for decades.... One employee or 500, RCG is here to help! We'll put our years of experience to work for you, building the steps to a compliant and stress-free HR department. "Consultants" are no longer a luxury for the big guys. Many HR Regs. are designed for companies with as few as ONE employee. Your HR Department may not be a direct revenue generator but it can surely cost dearly! Many of our clients found that out the hard way. Contact RCG before your competition does! We're local, independent, and not a chain or phony "coaching" outfit!
